

HOW CAN PRE-PACKAGED SNACKING BE HEALTHY?

People are going to snack no matter what. But if you can help them put better-for-you variations of those snacks in their bodies, you're winning! Of course we recommend getting as fresh and healthy as possible, but that's not always the easiest when you are looking for grab and go options for your team that won't go bad or end up adding to food waste before someone took the time to enjoy it.

There are plenty of healthy packaged snacks out there, too! Working with the world's leading expert on food and nutrition, Dr. Pamela Peeke, we've developed a tried and true method to offer HEALTHY snacking without sacrificing TASTE and SELECTION.

WE SOURCE OUR SNACKS FROM HEALTHY FOOD VENDORS WHO CARE.

They don't add or use:

- Artificial flavors, colors or sweeteners
- Corn syrup of any kind
- Hydrogenated oils
- MSG
- Refined sugars
- GMOs

THAT'S WHY WE WORK WITH BRANDS LIKE:

Other ways packaged single servings better-for-you snacks can be healthy:

- They can help with portion control
- No germ sharing - yours are the only hands touching these goodies
- Easy to input in fitness/diet tracker apps
- Allergen avoidance - labels are well-marked vs. those random treats someone brought in.

Healthy Snacking, More Satisfied Employees!
